

**ALEXA FERR TEAMS UP WITH ERIC BELLINGER'S TEAM,
THE PENHOUSE, FOR SINGLE "HIT THE SWITCH"**

LOS ANGELES, CA
R&B/Pop singer, Alexa Ferr (alexaferrmusic.com) has released a new single, **Hit The Switch!** The single marks the young artists first release in two years and the emergence of a new sound. "Hit The Switch" has already received positive reviews, with over 20, 000 streams on SoundCloud to date.

Of the single, Alexa says: "*Hit The Switch*" is about meeting someone who changed your view on being single vs. being in a relationship. The song is personal for me (Alexa), as after a bad break up I swore of relationships and wanted to be single

forever. I thought nothing or one could change that until I met someone who "hit the switch" on me and made me want to be with them, want to be in a relationship.

Hit The Switch was co-written by Alexa Ferr and Travis Bruice, and produced by Los Angeles-based production team, The Penhouse (Eric Bellinger, Rayven Justice).
